

**Group Name: Gopalmath**

**Project Title: Brain MRI Segmentation**

**Group Members**

Parshwa Shah (AU1940263)

Yash Doshi (AU1940197)

Jay Mehta (AU1940290)

**Task Performed this week:**

- We explored the Bayesian model for semantic segmentation.
- We found that the UNET architecture for semantic segmentation gives better results for dealing with biomedical images.
- We understood the Convolution Neural Network as a base to understand the UNET.

**Task for the next week:**

- We will explore UNET architecture in detail.
