

Group Name: Gopalmath

Project Title: Brain MRI Segmentation

Group Members

Parshwa Shah (AU1940263)

Yash Doshi (AU1940197)

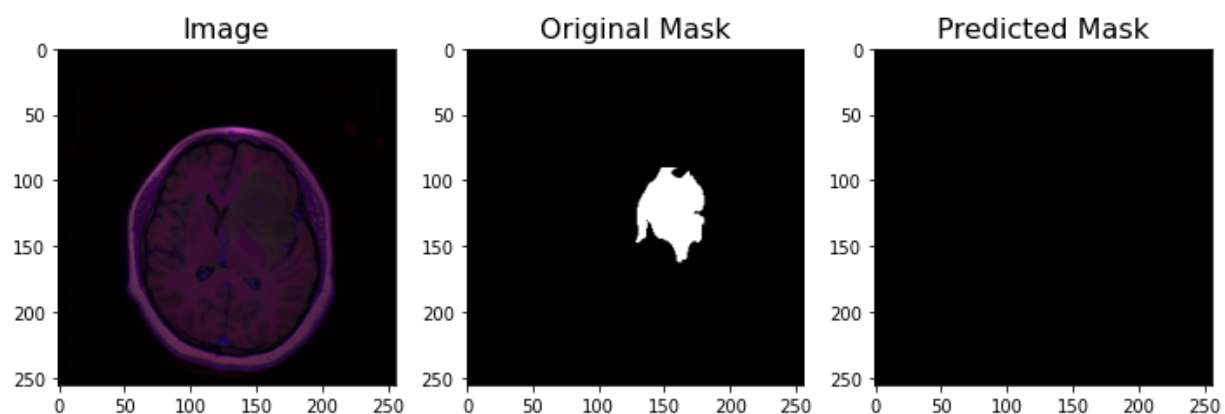

Jay Mehta (AU1940290)

Task Performed this week:

- Model prediction was very off. It was covering the majority area of image. This issue was resolved after tuning no. of filters and learning rate and prediction input normalization.
- Exported model and ran with low processing and ram.

Task for next week:

- We figured out 1 major issue of the model

We can see that we are not able to predict the mask because it can not see the tumor as we are not pre processing images at all for passing through the UNet Model. Next week we are planning to implement pre-processing of images.
