Project Title: Brain MRI Segmentation

Members

Parshwa Shah (AU1940263)

Yash Doshi (AU1940197)

Jay Mehta (AU1940290)

Task performed this week:

- We analysed the pattern in the dataset.
- We found that our dataset is more leaned towards MRI images with no tumour.
- And we found that dice loss function is not a good option for such a biased dataset.
- Hence we found a place to improve our model.

Task for the next week:

- We saw different loss functions to replace with the dice loss.
