

Group Name: Gopalmath

Project Title: Brain MRI Segmentation

Members

Parshwa Shah (AU1940263)

Yash Doshi (AU1940197)

Jay Mehta (AU1940290)

Task performed this week:

- We discovered different loss functions.
- We found out that the tversky loss function is the best fit for our model.
- Tversky is more useful for datasets which are imbalanced.
- And our dataset is imbalanced, so it will be more useful.

Task for the next week:

- We will try to implement the tversky loss function.
